

REMARKS

Favorable reconsideration is respectfully requested.

The claims are 23, 24 and 26 to 35.

Undersigned acknowledges with appreciation the helpful interview with Examiner Rao on April 20, 2005.

As a result of said interview, it was indicated that claim 25 should be included in claim 23 and claim 36 be canceled. This has essentially been accomplished by the above amendment.

At the interview, the Examiner suggested that in claim 23, third line from the bottom, the term "which forms the anode" should be inserted after "film". However, this amendment is not in accordance with the disclosure in the specification. In fact, claim 23 recites an anode layer on line 2.

Favorable action is now requested in view of the foregoing amendment as well as the amendment and remarks of March 25, 2005.

If the Examiner has any comments or proposals for expediting prosecution, he is invited to contact undersigned at the telephone number below.
